DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/08/2005 has been entered.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Mr. Tom Dao (Reg. No. 44,541) on August 22, 2005.
4. The application has been amended as follows:

In the specification:

Page 1, paragraph [0001], line 1: the phrase --, now U.S. Pat. No. 6,846,305-- has been inserted after "March 29, 2002".

In Claim 6:

On line 11: "therein" has been changed to: --having an opening spaced from the permanent seal for--;

On line 17: “spaced apart from the permanent seal” has been changed to: --at the opening of the at least one gap--.

In Claim 10:

On line 4: “form” has been changed to: --from--.

In Claim 12:

On line 9: “therein” has been changed to: --having an opening spaced from the permanent seal for--;

On line 15: the phrase “spaced apart from the permanent seal” has been changed to: --at the opening of the at least one gap--.

In Claim 20:

On line 9: “therein” has been changed to: --having an opening spaced from the permanent seal for--;

On line 15: the phrase “spaced apart from the permanent seal” has been changed to: --at the opening of the at least one gap--.

Reasons for the Amendment:

5. The examiner proposed, and agreed to by applicants’ attorney, to amend claims 6, 12 and 20 to recite that the at least one gap providing a channel between the front and rear sheets has an opening that is spaced from the permanent seal, and that the sacrificial port is attached to the front and rear sheets by a second seal at the opening of the at least one gap.

Reasons for Allowance

6. The following is an examiner’s statement of reasons for allowance:

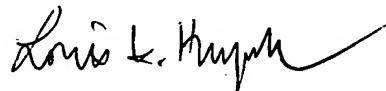

The prior art of record fails to disclose and/or teach a method for forming a flexible container that comprises in combination the steps of: heating a transparent front sheet and a vapor impermeable rear sheet in a first localized area to fuse together the heated portions of the adjoining surfaces to form a permanent seal around a portion of a common peripheral edge of the front and rear sheets, wherein the permanent seal has at least one gap having an opening spaced from the permanent seal thereby providing a channel between the front and rear sheets; and a step of providing at least one sacrificial port interposed between the front and rear sheets and in communication with the channel for aseptically filling the container, wherein the at least one sacrificial port is attached to the front and rear sheets by a second seal at the opening of the at least one gap.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
